

ENVIRONMENTAL POLICY

Radius Limited and its subsidiaries (Radius') are committed to protecting the environment and conducting business in a responsible and sustainable manner. We recognise our responsibility to minimise environmental impacts arising from our activities, products and services, while supporting our customers in their transition to sustainable mobility solutions.

Environmental Commitments

Radius operates an Environmental Management System (certified to ISO14001) to manage its environmental impact and commits to the following principles.

- Comply with all applicable environmental legislation, regulations and other compliance obligations.
- Prevent pollution and seek to minimise environmental impacts associated with our operations and services.
- Monitor potential risks and opportunities and seek to reduce our carbon emissions, and other relevant environmental impacts.
- Set and review environmental objectives aligned with our strategic direction.
- Maintain and continually improve an effective Environmental Management System to enhance environmental performance.
- To support our customers to transition to more sustainable mobility solutions.

Management Commitment

Our executive management demonstrate leadership and commitment by ensuring the Environmental Management System is established, implemented and maintained in accordance with ISO14001. This includes that environmental considerations are integrated into business decision-making, that appropriate resources are provided, and that this policy is communicated, implemented and reviewed to ensure ongoing suitability and effectiveness.
